

Announcing Future Openings for:

ENERGY AND MINERAL RESOURCES ENGINEER

The Department of Conservation, Division of Oil, Gas, and Geothermal Resources anticipates having openings for Energy and Mineral Resources Engineer positions in offices located throughout the state. Our District Office are located in Cypress, Bakersfield, Santa Maria, Ventura, Coalinga and Sacramento.

The salary ranges from \$3,526 to \$5,374 per month, depending on experience.

The position requires graduation from college with major work in geology, petroleum engineering, or a closely related field of engineering.

Incumbents at the entry level perform geological or engineering work in connection with the issuance, control, and administration of leases for the extraction of oil, gas, geothermal, and mineral resources to ensure compliance with lease/permit requirements. The incumbents perform inspections of oil, gas, and geothermal operations, including well sites, facilities, and equipment; make various physical and chemical tests, write reports on tests and inspections, compile graphic data and prepare technical reports on engineering and subsurface geological studies or investigations.

HOW TO APPLY

The Division will be establishing a mailing list for the next exam announcement, which should be published in one or two months. If interested in being on our mailing list send your name, address and/or e-mail address to Weegee DeBernardi at:

**DEPARTMENT OF CONSERVATION
DIVISION OF OIL, GAS, AND GEOTHERMAL RESOURCES
801 K STREET, MS 20-20
SACRAMENTO, CA 95814
(916) 323-1775
ldeberna@consrv.ca.gov**

Do not include an application and/or resume at this time. This is only to establish a mailing list. The Division of Oil, Gas, and Geothermal Resources will not retain any applications and/or resumes received.
